

CIRCULATOR FOR HEATING

ALPHA1 L

BENEFITS

- **Compatible with most Grundfos circulators running in heating installations**
Reduces the need to carry excess spares
- **4 screws for easy pump head replacement and fit**
Replace complete pump or just the pump head
- **One button user interface**
Easy and user friendly interface makes replacement and resetting simple and fast
- **Deblocking screw accessible from front**
Allows easy access to the pump shaft if it is needed to deblock the pump once installed

TECHNICAL DETAILS

Protection class: **IPX4D**

Sound Pressure level: **43 dB(A)**

Temperature class: **TF95**

Power Consumption: **4-60 W**

Qmax: **3.8 m³/h**

Hmax: **6.5 m**

EEL: **≤ 0.23**

Liquid temperature: **+ 2°C to + 95°C**

Ambient temperature : **0°C to + 55°C**
